

# Moon in Your Mouth

Goldfrapp

I'm alive  
I feel your heartbeat  
Moon in your mouth  
We are perfection  
Life and desire  
I wanna stay here now  
Every moment is a luxury

Just pull me along  
And don't let go  
You started something

I'm alive  
I feel the blood  
Seeing stars in your eyes  
There is an endless  
Chill, that's the love

So, hold me love  
And don't let go  
We started something  
We're alive

We're looking at the Moon  
It's the same face we all see

To you, to you  
Alive, to love  
To you, to you  
Alive, to love
