Someone

GOLDN

I'm in love
With someone
That's in love
With someone
I can't stay
I can't leave
My heart breaks
The way she looks at me

I feel that power when we close
Can't let you go
You's out this world baby
Right in my zone
Swear to God that he don't know
The things I know
To make you feel
The way you look

Shoulda learned by now
Maybe I'm just blinded
By the way you wear your dress
And what you got behind you
Throw that ring around
Get that finger shining
Yeah yeah
I want you more than you know

I'm in love
With someone
That's in love
With someone
I can't stay
I can't leave
My heart breaks
The way she looks at me

I'm such a sucker for pretty girls that know what they want
You stole my heart the moment that you put my hoodie on
I swear them eyes are spilling secrets to me that you won't
Baby I gotta know
If you're feeling it too

Shoulda learned by now
Maybe I'm just blinded
By the way you wear your dress
And what you got behind you
Throw that ring around
Get that finger shining
Yeah yeah
I want you more than you know

I'm in love
With someone
That's in love
With someone
I can't stay
I can't leave

My heart breaks
The way she looks at me
