Goldroom

Guided by the light
On the Tradewinds through the night
I'm gonna keep you in my sight
I see you, I see you

Guided by the light
On the Tradewinds through the night
I'm gonna keep you in my sight
I see you, I see you

I see you, I see you
I see you, I see you

I see you, I see you
I see you, I see you

Guided by the light
On the Tradewinds through the night
I'm gonna keep you in my sight
I see you, I see you

Guided by the light
On the Tradewinds through the night
I'm gonna keep you in my sight
I see you, I see you

Guided by the light
On the Tradewinds through the night
I'm gonna keep you in my sight
I see you, I see you

Guided by the light
On the Tradewinds through the night
I'm gonna keep you in my sight
I see you, I see you
