

Car Sick

Gomey

Out the window like
Shots hit
Got me nauseous
I could ride every wake
But still get car sick though
Drivin'
Fuck the mileage
Cause I know of a place
Where all of the waves
Shake all the bikinis off the pontoon
Might just take another for the part two
I called in
Said I'm car sick
I been nauseous
Swear I been on the way
But I gotta lay out

I cannot drive
We need chauffeurs
Motorcade like I'm POTUS
My DD microdosin'
My damn team's so damn big
Can't fit in a Rover
Put work in and split bands
Like my brothers Jonas
Did some White...
Lotus
Shootin' shots in my loafers
If I never hit my Clooney years
I'd still be in 5 Oceans
(You know this)
Still lookin'
For a girl that got a conscience
I guess I'll settle for her fine friends

Shots hit
Got me nauseous
I could ride every wake
But still get car sick though
Drivin'
Fuck the mileage
Cause I know of a place
Where all of the waves
Shake all the bikinis off the pontoon
Might just take another for the part two
I called in
Said I'm car sick
I been nauseous
Swear I been on the way
But I gotta lay out

That booty right
When she jump in it gon' keep her afloat
Lifeguard on site
She can swim but I still teach her the strokes
Don't got cigars but brought some Cubans
I still lick and light 'em up

When we out in Lauderdale
I'm on the float like Elián
We need more White...
Lotus
Fallin' off of the boat and
Doing all the types of things
We can't talk about it or post it
(You know this)
Still lookin'
For a little bit of conscience
So I can mix it up with tonic

Shots hit
Got me nauseous
I could ride every wake
But still get car sick though
Drivin'
Fuck the mileage
Cause I know of a place
Where all of the waves
Shake all the bikinis off the pontoon
Might just take another for the part two
I called in
Said I'm car sick
I been nauseous
Swear I been on the way
But I gotta lay out
