

Here Because I Care

Gomey

I don't like the way you doubt me constantly
Yeah I'm not tryna say that I do not believe
You have a guilty conscience from things I haven't seen
But girl we all got problems, just focus on your dreams

And slow down just a little bit
I know in your mind you been living with
A wall you can't climb like it's infinite
So let me remind you to let me in, oh

You don't like it when I open up 'cause you can't
You never even try to give yourself a chance
You're closed off from it all but your silence is just as loud
All I ever wish is that you'd understand
I'm here because I care

I'm here because I
I'm here because I care

(I do, I do)
Girl it's you

Ooh girl, we're living on limited time
I don't really mind, I'll be right by your side all night
And girl I know it's not black and white
We fuss, we fight but we doing alright

And you know how much I care for you girl, I do
But I wish the feeling was a little mutual
'Cause I know you don't

You don't like it when I open up 'cause you can't
You never even try to give yourself a chance
You're closed off from it all but your silence is just as loud
All I ever wish is that you'd understand
I'm here because I care

I'm here because I
I'm here because I care
