

Malibu

Gomey

Get all the times that I've been out here on my own
Yea everywhere I've been
I could never find a place that felt like home

I'll never forget all the times that I've been out here on my own
Yea everywhere I've been I could never find a place that felt like home

(Yeah yeah)
'Till I had a dose of you
Swear you get me high and it's so unreal
Nothing on my mind while my lips stay sealed
Nothing but the vibes got me in my feels
The time stands still

When we're in Malibu
When we're in Malibu
When we're in Malibu
When we're in Malibu

Sunshine on my skin, feel the warmth inside my whole damn soul
And I've never fit in so my mistakes are all I've ever known

(Yeah yeah)
'Till I had a dose of you
Swear you get me by yea it's all down hill
Peace been on my mind by my own free will
Melancholy skies make my whole heart spill
The time stands still

When we're in Malibu
When we're in Malibu
When we're in Malibu
When we're in Malibu
When we're in Malibu
When we're in Malibu
When we're in Malibu
When we're in Malibu
When we're in Malibu
When we're in Malibu
