

# Red Flags

Gomey

You got red flags but I'm color-blind  
I ignore the signs  
Yea you know the vibes  
And I still get all the butterflies  
From your diamond eyes  
When you tell me lies

You're doing cartwheels in my head  
Releasing my dopamine  
You're breaking bad and now I see  
A little bit of chemistry  
What a time what a time just to be alive  
Last night you told me things that you can't deny  
Just friends hiding underneath your sheets

And I feel like (Ooh)  
And your lips are reminiscent (Ooh)  
Of my bad decisions

You got red flags but I'm color-blind  
I ignore the signs  
Yea you know the vibes  
And I still get all the butterflies  
From your diamond eyes  
When you tell me lies

You got red flags, but I'm in denial  
You got red flags, but I'll stay a while

You got red flags, but I'm in denial  
It's a red card foul every time you smile  
Cigarette drags followed by the bottle  
And I don't fuck with models cause all y'all bitches wild

It's 2am in the morning and you don't respond to texts  
Where you at? Is this a test?  
I'm about to hit my ex for the flex  
But do I wanna deal with the mess?  
You know I don't, but I'm a bit obsessed with the sex

And I feel like (Ooh)  
And your lips are reminiscent (Ooh)  
Of my bad decisions

You got red flags but I'm color-blind  
I ignore the signs  
Yea you know the vibes  
And I still get all the butterflies  
From your diamond eyes  
When you tell me lies

You got red flags, but I'm in denial  
You got red flags, but I'll stay a while
