

Something Real

Gomey

I'm ready to go
Yeah I know, I know
And it's like, if one thing goes wrong, you're like
Look, everything goes wrong honestly

I just wanna feel, wanna feel
Wanna feel something real
Somewhere on the edge, on the edge
On the edge I wanna live

Don't let me down, just take me close to where I wanna go
So far away, above the clouds, where all the stars are gold
Somewhere we'll spend our time together, last forever
What you already know, you know

Take me high, take me higher than I've ever been
Say goodbye, say goodbye to all your shitty friends
So if you're tryna leave, we could leave
Girl, I'm ready to go

You, you, you
I see you be like-

I see you be like-
You, you, you, you
You, you, you, you
You, you, you, you
You, you
I see you be like-

I'm ready to go
Yeah I know, I know
And it's like, if one thing goes wrong, you're like
Look, everything goes wrong honestly

I just wanna feel, wanna feel
Wanna feel something real
Somewhere on the edge, on the edge
On the edge I wanna live

Don't let me down, just take me close to where I wanna go
