Dublin

Gone Is Gone

All is seen in silence
All the truths were lies
Bending words misguide you
I vow to make it right

And you lost yourself
And you found your way
And then you went and lost yourself again

Don't ask me I'm lying
Don't ask me I'm fine
Own it if you're trying
Own it with your life

And you lost yourself
And you found your way
And then you went and lost yourself again

Knowing all we've done before
We can stand atop the world
Now that we found our way

So glad we found our way

All of life is fleeting fast
Love the ones make it last
