

Emptiness is here  
No control losing all sight of hope  
One thing that I see  
My image is staring back at me  
One trip over the sun

Starlight  
Days will carry on  
While we search for starlight  
Days will carry on  
While we search for

Darkness reappears  
You are lost and the body fills with fear  
Look to the light we'll know and we'll learn  
From wrong and right  
One trip over the sun

Starlight  
Days will carry on with time  
While we search for starlight  
Days will carry on  
While we search for  
I'll stay awake tonight floating in nothing

Starlight  
Days will carry on with time  
While we search for starlight  
Days will carry on with time  
While we search for starlight
