

Thinkin' we could use a getaway
Get lost and then take the easy lane
I'm rollin' up, pullin' up
You can be the DJ, I can drive
I'm pickin' you up in less than five
Just rollin' up, pullin' up
We got green lights all the way
Just sit back, relax and let the music play

Feels like all I need is you right here with me
And good vibes, chillin' on cruise control
Hangin' our toes out of the windows
Sky stretched out for miles, sunshine on the dial
Pickin' up the gas or take it slow
No matter where we go, we're gonna be alright
If we just roll with the rhythm of the road and the radio, yeah
Roll with the rhythm of the road and the radio, yeah, yeah

I'ma shut off the navigation
You flip on your favorite station
Yeah, turn it up, turn it up
Southern blacktop remedy
Makin' up new melodies
Yeah, turn it up, oh, turn it up
There's nowhere else that I'd rather be, yeah

Feels like all I need is you right here with me
And good vibes, chillin' on cruise control
Hangin' our toes out of the windows
Sky stretched out for miles, sunshine on the dial
Pickin' up the gas or take it slow
No matter where we go, we're gonna be alright
If we just roll with the rhythm of the road and the radio

Roll with the rhythm of the road and the radio, yeah, yeah
We don't gotta go far
Jump into the car for some R&R, yeah
Just roll with the rhythm of the road and the radio

Feels like all I need is you right here with me
And good vibes, chillin' on cruise control
Hangin' our toes out of the windows
Sky stretched out for miles, sunshine on the dial
Pickin' up the gas or take it slow
No matter where we go, we're gonna be alright, yeah
We're gonna be alright
If we just roll with the rhythm of the road and the radio

Don't gotta go far
Roll with the rhythm of the road and the radio, yeah, yeah
Jump into the car for some R&R, yeah
(Radio)
Just roll with the rhythm of the road and the radio
