

# Fearless

Goo Goo Dolls

Behind every fear there's a lie told  
Spent most of my life trying to let go  
The more you love  
The more you bleed

Some days will be harder than others  
So we gotta lean on each other  
Hands in the air  
Hearts on our sleeve

We're living in a world unfair  
We're living in a world so scared

I'm gonna be fearless, fearless  
I'm brave enough to feel this, feel this  
I'm running down my demons, demons  
No doubts around it  
I finally found it  
Fearless, fearless  
I never thought I'd feel this, feel this  
I finally believe it, believe it  
No doubts around it  
I finally found it

I can't be myself if I'm hiding  
And if I'm not living I'm dying  
I can't feel  
What I don't know

I'm tearing apart all the labels  
Throwing my luck on the table  
And if I lose  
I won't go home

We're living in a world unfair  
We're living in a world so scared

I'm gonna be fearless, fearless  
I'm brave enough to feel this, feel this  
I'm running down my demons, demons  
No doubts around it  
I finally found it  
Fearless, fearless  
I never thought I'd feel this, feel this  
I finally believe it, believe it  
No doubts around it  
I finally found it

Hold it close, don't ever let it go  
I can feel the light inside  
Hold it up so that everybody knows  
Now is not the time to hide

'Cause we're living in a world unfair  
We're living in a world so scared

I'm gonna be fearless, fearless

I'm brave enough to feel this, feel this  
I'm running down my demons, demons  
No doubts around it  
I finally found it  
Fearless, fearless  
I never thought I'd feel this, feel this  
I finally believe it, believe it  
No doubts around it  
I finally found it

Fearless, fearless (I'll never run away)  
Fearless, fearless (no I'll never be afraid)  
Fearless, fearless (I'll never run away)  
No doubts around it  
I finally found it
