

# Long Way Home

Goo Goo Dolls

I see the darkness and it's following me here  
To all the cracks and all the edges of your fear  
I know where you go  
You try to run away, but really you are falling  
Through endless shadows made of everything you thought it was  
Till you woke up

When your hope is sinking like a stone  
I will take your hand, I will walk you home  
If you never try, you're never gonna know  
I will take you there, but you can't let go  
Cause it's a long way home  
It's a long way  
It's a long way  
It's a long way

I've seen the lights of countless dreamers burned from nothing  
You have to hurt to know if anything means something more  
Yeah, you're so much more

When your hope is sinking like a stone  
I will take your hand, I will walk you home  
If you never try, you're never gonna know  
I will take you there, but you can't let go  
Cause it's a long way home  
It's a long way  
It's a long way  
It's a long way

Light up the darkness  
Take what you're given  
Sometimes it's frightening  
But it's amazing  
Live for the moment  
We're only human  
We're only human  
We're only human

It's a long way  
It's a long way  
It's a long way

When your hope is sinking like a stone  
I will take your hand, I will walk you home  
If you never try, you're never gonna know  
I will take you there, but you can't let go  
Cause it's a long way home  
It's a long way  
It's a long way  
It's a long way home
