

Use Me

Goo Goo Dolls

1, 2, 3, 4

I may put you on a pedestal
But I'm not your fall from grace
Maybe I enjoy the punishment
Maybe I enjoy the chase
You say you love me in the darkness
But in the day I am denied

Baby it's alright
You can use me anytime
Baby it's alright
You can use me anytime

It doesn't really matter
If I only fill the space
Of someone you've not forgotten
Of someone who's gone away
Yeah, you lead me to your doorstep
But you keep me locked outside

Baby it's alright
You can use me anytime
Baby it's alright
Use me anytime

When your life is just confusion
And you're crashing to the ground
And you need someone to catch you
And then you finally figure it out
That it was me that held you hostage
That is was me that held the key
That it was me that made you happy
That it was me that set you free

Baby it's alright
Use me anytime

When there's no one on your doorstep
When there's no one to deny
When there's no one in the darkness
I think you'll finally realize
That it was me that held you hostage
That is was me that held the key
That it was me that made you happy
That it was me that set you free

Baby it's alright
Use me anytime

Baby it's alright
Baby it's alright
Baby it's alright
You can use me anytime
Baby it's alright
Baby it's alright
You can use me anytime

Baby it's alright
