

Self Help

Good Charlotte

All I have right now is right here
And right now

I want what I want, I always have
When no one cared about me, dreams were all I had
But nightmares grow and no one's listening
And idle thoughts'll do their thing
I still feel so much pain here from the past

And it cuts like a knife
It feels like a fight
To take back your life

Searching for the meaning
I'm living in these feelings
I'm ready for a reason to believe
Now I'm working on my insides
'Cause outside there's no reasoning
If anyone here [?] what it seems

All I have right now is right here

I felt too bad about myself
I never thought I was good enough for anybody else
I couldn't look love in the eye
I was too broken to try
Life was a cold song that taught me not to cry

And it cuts like a knife
It feels like a fight
To take back your life

Searching for the meaning
I'm living in these feelings
I'm ready for a reason to believe
Now I'm working on my insides
'Cause outside there's no reasoning
If anyone here [?] what it seems

How long I'm waiting
Feeling lost, frustrated
Locked out and I'm on my own
[?] got no place to go
How long should I stay here all alone

Searching for the meaning
I'm living in these feelings
I'm ready for a reason to believe
Now I'm working on my insides
'Cause outside there's no reasoning
If anyone here [?] what it seems
