

Ginger Lemonade

Good Kid

Can we hang out sometime?
I'm living two feet behind my eyes
And everything that I have tried
A million ways to stay the same
But I've got an axe to grind
A voice I have yet to find
Songs I cannot transcribe
And I can't really play
And stay in time

Whatever I do, I fall behind
But now we're a crew of four or five
And when the whole room and world unwinds
I know we'll be fine

And nothing's gonna change, nothing stays the same
Ginger lemonade until we—
All are going grey, nothing's gonna change
Ginger lemonade and green tea
Oh well, it may never go our way
Oh well, it's nothing that we can't face
Oh well, it's never too late

It's chaos and endless roads
We broke off a bit more than I was told
But the fate isn't mine alone
A million ways to change your tones
Now we've got enough new chords
And lyrics we can't afford
So Davey just get on board
And we can play tunes until we die

And when the whole room and world unwinds
I know we too will all be fine

And nothing's gonna change, nothing stays the same
Ginger lemonade until we—
All the going great, nothing's gonna change
Ginger lemonade and green tea
Oh well, it may never go our way
Oh well, it's nothing that we can't face
Oh well, it's never too late

Can we hang out sometime? (A million ways to stay the same)
Can we hang out sometime?
Can we hang out sometime? (A million ways to stay the same)
Can we hang out sometime?

Can we hang out sometime?
