

## Some Time To Explain

Good Kid

It's been a while, I've been out on my own  
I get a little anxious when you call me on the phone  
Somebody said that it, it fades away  
But in the interim, it was hard to see that way

It's been a while, I've been out on my own  
I'm in denial about living life alone

I said I don't like change but I'm not afraid  
Can't keep it together ever anyway  
When every page is in disarray  
I think we'll be okay  
I said I don't like change but I'm not afraid  
Can't keep it together ever anyway  
When every page is in disarray  
I think we'll be okay that way, that way

I thought it'd change when I got older  
But the same year came over and over  
And the only change that I could feel  
Was the aging of my bones  
And then in one October  
When the sidewalk home was covered over  
Well I don't know the method  
But you pulled life from the loam

It's been a while, I've been out on my own  
I'm in denial about living life alone

I said I don't like change but I'm not afraid  
Can't keep it together ever anyway  
When every page is in disarray  
I think we'll be okay  
I said I don't like change but I'm not afraid  
Can't keep it together ever anyway  
When every page is in disarray  
I think we'll be okay that way, that way
