

Garden

Good Morning

You're in the airport
You're in the garden
You got a number
You got a passport
Believe in science
Believe in medicine
Believe it's always getting better
Everything you want you've gotta give it time

I cashed my ticket
I made my millions
Spent it on nothing
No better feeling
I tried to numb it
I tried to kill it
Thought I was winning
Everything you want you gotta give it time
Walk a little longer to the finish line
See a little lighthouse or a neon sign
Everything you want you gotta give it time

Isn't it lucky we're so progressive
And aren't you thankful for what you're given?
Everything you want you gotta give it time
Walk a little longer to the finish line
See a little lighthouse or a neon sign
Everything you want you gotta give it time

Very relaxed right now
Very relaxed right now
Very relaxed right now
I'm feeling very relaxed right now
Feeling very relaxed right now!
