

Look Around

Good Morning

Look around
Keep your head on the ground
Look around
Keep your head on the ground

I live to find
That look in your eyes
It's something to try
I live to find
That look in your eyes
It's something to try

Look around
Keep your head on the ground
Look around
Keep your head on the ground

I live to find
That look in your eyes
It's something to try
I live to find
That look in your eyes
It's something to try
