

Step Aside

Good Morning

How was your turn in the sun?
Could you have been a better one?
Good use of people's gun
Spin all that can be spun
Oh, what are you so frightened of?

It's only what you don't know, by now
Only what you don't know, by now
It's only what you don't know, by now
Only what you don't know, by now

And it's almost your time to choose
Which old white man you want to win?
And which one to lose?
Do you think they know values?
What gives you these blues?

Yeah it's only what you don't know, by now
Only what you don't know, by now
It's only what you don't know, by now
Only what you don't know, by now

You couldn't burn it, gonna rip it out to see
You couldn't burn it, gonna rip it out to see

No you can't step aside
Or give up, abuse his rights
An ongoing genocide?
No, not with God on your side
And on the day you die

It'll still be what you don't know, by now
Only what you don't know, by now
It's only what you don't know, by now

You couldn't burn it, gonna rip it out to see
You couldn't burn it, gonna rip it out to see
You couldn't burn it, gonna rip it out to see
You couldn't burn it, gonna rip it out to see
You couldn't burn it, gonna rip it out to see
You couldn't burn it, gonna rip it out to see
