

## Time To Try Again

Good Morning

Time to try again  
At home I need to find my pills  
Something they forgot to teach was  
How to relax when things look steep

But you and I've been told  
That now we're getting older  
To use some sense and not our luck  
Oh I never had enough  
So why try again?

Can't seem to find the time  
To straighten out and make something mine  
It's all good to wish you well but  
What's the point no kiss and tell  
But it's over

Since we've been told  
That now we're getting older  
To use our sense and not our luck  
Oh you know I never had enough  
So why try again?
