

The Buzz

Good Neighbours

Tried to stop believing
Tried to keep the feeling down
But nothing stops the bleeding
And everyone can see it now

I've been lost
Trying to find the way that it was
I've been anything but in love
Since we pulled the plug, there's no way of switching you off
So tell me, do you still miss the buzz?

It's driving home the long way
'Cause I don't wanna see your house
'Cause I can't pretend that we'd be friends
Like I'm moving on when my heart stuck around

I've been lost
Trying to find the way that it was
I've been anything but in love
Since we pulled the plug, there's no way of switching you off
So tell me, do you still miss the buzz?
Yeah, tell me, do you still miss the buzz?

I've been lost
Trying to find the way that it was
I've been anything but in love
Since we pulled the plug, there's no way of switching you off
So tell me, do you still miss the buzz?
