

Dark Days

Good Old War

I fell apart in your arms when I was afraid
I had no where to go
Oh, if you weren't around to show me the way
How would I ever know

I'm happy just to breathe, breathe, breathe
Now that I finally see, see, clearly
What is right in front of me
I'm happy just to breathe, breathe, breathe

They say there's no coming back, but what do they know
What do they know?
It's float or sink like a stone, that's what I'm told
I'll be your glitch in the code

I'm happy just to breathe, breathe, breathe
Now that I finally see, see, clearly
What is right in front of me
I'm happy just to breathe, breathe, breathe

Everybody wants to say things are better than before
I don't miss those dark days, anymore
Everybody wants to say things are better than before
I don't miss those dark days, anymore

I'm happy just to breathe, breathe, breathe
Now that I finally see, see, clearly
What is right in front of me
I'm happy just to breathe, breathe, breathe
