Don't Forget

Good Old War

Packing up, say goodbye
There comes a point, there comes a time mhm
Half asleep, wide awake
Here it is, the great escape
The look in your eyes

Don't forget I won't forget you
Don't forget me, I won't forget you
After all that we've been through
Don't forget I won't forget you

We wrote our names on the wall
We played the game, thought we'd seen it all mhm
We found out what it's all about
All the nights we did without
They flicker and fade

Don't forget I won't forget you
Don't forget me, I won't forget you
After all that we've been through
Don't forget I won't forget you

Driving through another storm
Miles away from parts unknown, oh no

Don't forget I won't forget you
Don't forget me, I won't forget you
After all that we've been through
Don't forget I won't forget you
