

## Misty-eyed

Good Old War

What do you say when you don't have a clue?  
It's not like before when I drove around with you  
Something in the air has me lookin' back confused  
It's like emotional deja vu

The same places at different times  
Take on another light  
What happened, how and why?  
Leaves me misty-eyed

It's hard to explain so you get the entire truth  
It's not always easy putting words to your mood  
Something's fooling me, did the sun go down too soon?  
It's been a while but somehow this all feels new

The same places at different times  
Take on another light  
What happened, how and why?  
Leaves me misty-eyed

And memories all come flooding back  
With all the feeling still attached  
It's like a nostalgic heart attack  
That takes me back again  
And leaves me...

The same places at different times  
Take on another light  
What happened, how and why?  
Takes me back again  
Leaves me misty-eyed

What do you say when you don't have a clue?
