

That Feeling

Good Old War

When you showed up, my world was steady
Now you givin' a little twist to the story
I'm not worryin' about the endin'
Cause it's everything in-between that has meaning

That feeling
It's a dangerous thrill
That feeling
When you're out of control
That feeling
I never want it to end
That feeling
We need it, we need it

You're all wound up, you're always movin'
We can stop when you want to, when you're ready
Forget the past, live in the moment
If you know who you want to be you're not dreamin'

That feeling
It's a dangerous thrill
That feeling
When you're out of control
That feeling
I never want it to end
That feeling
We need it, we need it

Out of control, is what I know
I need you to let me go, release my soul
I feel it now, it's all around me
In everything, everywhere
I need it

That feeling
It's a dangerous thrill (that feeling)
When you're out of control (that feeling)
No one get closer to you (that feeling)
We need it, we need it (that feeling)
When there's no turning back (that feeling)
Show you just who you are (that feeling)
I was scared, full of doubt (that feeling)
We need it, we need it
