What Does the Future Mean

Good Old War

What does the future mean now?
The past has kicked me around
I'm trying to live in the present tense
Oh, what does the future mean now?

I bet the first ones to walk this earth
I could not imagine it
Nobody wants to get their feelings hurt
But we never learn to forget

Oh, what does the future mean now?
The past has kicked me around
I'm trying to live in the present tense
Oh, what does the future mean now?

I always thought that when I grew up
I would, have it all figured out
I'm wasting so much time waiting in lines
I see that I'm finding my way out

Oh, what does the future mean now?
The past has kicked me around
I'm trying to live in the present tense
Oh, what does the future mean now?

Oh, what does the future mean now?
The past has kicked me around
I'm trying to live in the present tense
Oh... what does the future mean now?
