## Window

Good Old War

I, I am so like window in your life I stay so open and some days, I'm as close as i can get When you say I love you That's right That's right I'm gonna stay awake for you My home, my only way to be alone My home, so quiet That noise is like 1,000 flying birds It's so loud, I'm shut down That's right That's right I'm gonna stay awake for you I, I tried so hard I wanted nothing Some time to think Some time alone There's nothing wrong with being so quiet There's nothing wrong You're never frightened

That's right That's right I'm gonna stay awake for you
