

## The Sky Is Falling

Good Riddance

Look out below  
The sky is falling  
Today is the day the weak will be slain  
See carrion swarm towards human landfills  
A final resting place  
For the enemies of the state  
Their truth is a lie  
With break neck speed  
And sterile affection  
We swallow a culture  
Being spoon fed to us  
Like dutiful sheep  
Being led to the slaughter  
We awaken infected  
In the land of the free  
And the home of the brave
