

Angel

Goodbye June

High calling, I'm always falling through your clouds of white
Your face, my saving grace, you catch me just in time
If I'm dreaming, I never want to leave it, I love your body on
mine
If I'm dying, can I keep on dying? Baby, I'm feeling so divine
Ooh, baby, I'm feeling so divine
Yeah

Angel, I'm down on my knees
You're the one that I trust
The one I believe in
Save me, I'm begging you, please
My hands are held high
My loving is free

Ooh, my loving, my loving, my loving is free

My lover, I wanna rediscover how it feels to be
In heaven, my number seven, show me how it feels to see
Clearly, I hate misery, come and mystify me
'Cause I'm lost and I'm gone, I need you to come and rescue me

Angel, I'm down on my knees
You're the one that I trust
The one I believe in
Save me, I'm begging you, please
My hands are held high
My loving is free
My loving is free

Angel, I'm down on my knees
You're the one that I trust
The one I believe in
Save me, I'm begging you, please
My hands are held high
My loving is free

Ooh, my loving, my loving, my loving is free
My loving is free
