

Breathe and Attack

Goodbye June

Breathe and attack
It's as easy as that
Breathe and attack
It's as easy as that

I was born on the river, raised by the rocks
Moved to the city and it gave me culture shock
I'm the son of a preacher but I lost that fever
Yeah, I've been destined to accept that I ain't either

Breathe and attack
It's as easy as that
Breathe and attack
It's as easy as that

People gonna say what they want (breathe and attack)
People gonna see what they want (breathe and attack)
People gonna hear what they want (breathe and attack)
Let me show you how it is done
Just breathe and attack

Can I deliver? Have I lost my edge?
I'm about to straight up put these rumors back to bed
I'm a force of nature just sweeping through
I'm about to light some dynamite with a short fuse

Breathe and attack
It's as easy as that

People gonna say what they want (breathe and attack)
People gonna see what they want (breathe and attack)
People gonna hear what they want (breathe and attack)
Let me show you how it is done
Just breathe and attack

(Breathe and attack)
(Breathe and attack)
That's all you gotta do
(Breathe and attack)
Just breathe and attack
Just breathe and attack
Just breathe and attack

People gonna say what they want (breathe and attack)
People gonna see what they want
People gonna hear what they want (breathe and attack)
Let me show you how it is done
Just attack
