

Loose tongues talking behind closed doors  
I bet they see me walking back for more  
I got a wild idea, baby, a wild idea  
So come a little closer you got nothing to fear

You step away, I scream your name  
Oh, can't nothing save you, lady  
You drive me crazy, Daisy  
My beating heart, your shaking hips  
Oh, come kill me right, baby  
You drive me crazy

I kept you late in my father's car  
Tight and close and we went too far  
But I'm wild, but sober, baby, clear as a bell  
If your lips are the devil, then I'm going through hell

You step away, I scream your name  
Oh, can't nothing save you, lady  
You drive me crazy, Daisy  
My beating heart, your shaking hips  
Oh, come kill me right, baby  
You drive me crazy

Oh, I can't leave my Daisy alone  
Just can't leave you alone

You step away, I scream your name  
Oh, can't nothing save you, lady  
You drive me crazy, Daisy  
My beating heart, your shaking hips  
Come kill me right, baby  
You drive me crazy
