

Lady Luck

Goodbye June

You're a shadow
Standing in your own sunshine
Always doing what
Feels right, not wasting no time

You're alone
Waiting for your bus to leave
Waiting for your chance to go
Waiting for your chance to breathe

Through the Darkness
Through the Darkness you run
Close behind you
Close behind you it comes
Lady Luck finally found
You out in the sun

Friends and family
Watching as you drive away
But you still got your faith
No matter how long it takes

Take a sip
Drink it up, lick your lips
Drink it up, whoa
I'll see you in the wild yonder
