

My Place

Goodbye June

It's been a hard year, but it's getting better
Seeing your face in this stormy weather
The sun's breaking through these clouds
Now I know that times have been frustrating
Seeing your face makes me feel like a kid again
You know my love is yours

Crawl in through the window
Slip in through the back door
Stroll in through the foyer
My place is always yours
Day or night, night or day
Anytime you want to stay
My place is always yours

Spilling drinks, telling jokes
Getting high to the Rolling Stones
My God, what a beautiful day
I'm sitting, making fun of my crazy first cousin
We've never been good at finding true lovin'
And we laugh about our last heartaches, yeah

Crawl in through the window
Slip in through the back door
Stroll in through the foyer
My place is always yours
Day or night, night or day
Anytime you want to stay
My place is always yours

Crawl in through the window
Slip in through the back door
Stroll in through the foyer
My place is always yours
Day or night, night or day
Anytime you want to stay
My place is always yours

I don't care where you been
What you did, or who you were back then
My place is always yours
Day or night, night or day
Anytime you want to stay
My place is always yours
