

Nothing

Goodbye June

So sick and tired
I'm so sick and tired
Yeah, I'm so sick and tired
Always trying and ending up with nothing

Ain't got much time
No, I ain't got much time baby
I ain't got much time to give
Always ending up with nothing

You stole all my love
You stole all my stuff
You stole all my life, my desires
And left me with nothing

I'm just a fool
Yeah, I'm your little fool
You drag me, you beat me
And always complete me with nothing

Always leaving me with
Nothing
Always leaving me with
Nothing

Take all my love
Take all my pride
Leave me to die
I'm just trying to survive with nothing

I'll be alright
I'll be just fine
Born into this life
The same as I'll die, that's with nothing

Nothing
Nothing
Nothing
Always leaving me with
