

# Riding

Goodbye June

Keep on riding  
Don't stop till you get what you want  
Keep on riding  
Don't stop till you get what you want

Just you wait, just you wait and see  
I'll be a great one, everybody's dream  
I'm at your door knocking for acceptancy  
Accept or deny, I don't mind  
Keep me right on your ecstasy  
So you're next to me

Keep on riding  
Children ride through the night  
Don't stop until you get what you want  
Keep on riding  
Don't listen to the system  
You got the right to live however you want  
Keep on rising, living through the night  
Keep on rising  
Keep on rising, children don't stop the fight

On our way, I got my family  
Three cousins grown to make a history  
We're at your shore, begging for a bite to eat  
The future is bright and I don't mind  
A generation blessed, no peace, give it to me

Keep on riding  
Children ride through the night  
Don't stop until you get what you want  
Keep on riding  
Don't listen to the system  
You got the right to live however you want  
Keep on rising, living through the night  
Keep on rising  
Keep on rising, children don't stop the fight

Keep on riding  
Children ride through the night  
Don't stop until you get what you want  
Keep on riding  
Don't listen to the system  
You got the right to live however you want  
Keep on riding  
Children ride through the night  
Don't stop until you get what you want  
Keep on rising, living through the night  
Yeah, keep on rising  
Keep on rising, children don't stop the fight
