

Take a Ride

Goodbye June

She's off the ground running
She's the tip of the spear
She's supersonic baby
Into my atmosphere
She's out on that horizon
She's grinding them gears
She's pedal to the metal
Like she ain't got no fear

Hey pretty lady, won't you come my way
Come on over, baby, I got something to say
Hey pretty mamma, won't you come on by
Give you a piece of this American pie

Take a ride
Take a ride
Oh, take a ride

She's love on the road
She's fire and ice
She's in overload
And I'm feeling alright
I'm in over my head
Getting high on the fumes
She's high octane
But ain't got nothing to lose

Hey pretty lady, won't you come my way
Come on over, baby, I got something to say
Hey pretty mamma, won't you come on by
Give you a piece of this American pie

Take a ride
Take a ride
Oh, take a ride

Hey pretty lady, won't you come my way
Come on over, baby, I got something to say
Hey pretty mamma, won't you come on by
Give you a piece of this American pie
Hey pretty lady, won't you come my way
Come on over, baby, I got something to say
Hey pretty mamma, won't you come on by
Give you a piece of this American pie

Take a ride
Take a ride
Yeah, take a ride
Take a ride

Take a ride
