

Universal Mega Love

Goodbye June

Walk around and show somebody love
Every day
There's something more to us
Come my way
I never wonder 'bout the things they say
Can't get enough
Life is good I can't complain
This mega love
Oh, it's moving all over you
Oh, let it move
Oh, don't you feel it washing over you?

Baby love keep blowing my mind
Lady luck keep spitting those dimes at me
Universal mega love come find it
Got the means and I'll supply it
A universal mega love
Is shining

Let it simmer cook all night
So good
Let it move you feel alright
Alright
Oh honey you barely scratched the surface
Change it up
Everybody shine your light
We are made of love
Yeah

And it's moving all over you
Ooh feels good
Ooh don't you feel it washing over you?

Baby love keep blowing my mind
Lady luck keep spitting those dimes at me
Universal mega love come find it
Got the means and I'll supply it
A universal mega love
Is shining

Don't you feel it washing over you?
My universal mega love
My universal mega love
My universal mega love
