How can I promise you forever When I can't even promise the rest of the day All I know is we started this journey together And hopefully we can make it the rest of the way

Inshallah
Insha-llah, Insha-llah
Inshallah-ah-ah
Insha-llah, Insha-llah
Inshallah-ah-ah

Yeah
Dialect kinda slurred
Did you catch that word blurred
Talk slow, walk slow
And years passed
Make that cash
Never took a second look
Follow the words in the book

Watch 'em chill and cook Somethin' new for your ears, bro

Sing-along Same sing-song

Wantin' to bail out the front door

Which you lookin' at me more

I can show you shit that you never seen before

Crushed ice for cold drinks

Surely

Makin' music for the worldly

And the people in it If you gotta spin it

Life is only five minutes

We got contrabanded

I recite about bein' free

Only to a certain extent

In a country run by a president

That doesn't know a single resident

In my 'hood

It is good

Or that is fucked-up

I let 'em speak for me

Break bread and peace treaty

Across seas Till the feds get it

And split it

With other federals

And agents and senators and representatives that live off us

And feed off us

For new ides

For years

Niggaz been raped

Let's escape

This dope

But how?

When it's locked into our chemistry for

'Cause nigga that's all we know

That's how we grow

Remember me, I explain Our relentlesship ?While true made me get the grainAnd I refuse to settle Well except the simple and plain I'd much rather excite Delight and entertain Passionately persistant When I preach this positivity For stand up god, write hard things I like to say And our words don't take a chance See if I can make y'all dance But I really ain't got that much time to play Just row Your little boat down the stream Go slow 'Cause life is only a dream And if I should die before I awake I leave to all my beloved this message to take Ahhhhhh

The merciful Lord of worlds Master of the days of judgement Got me on a path Upon those who you bestowed your favors Not upon those who your wrath has brought down Nor on those who go astray after hearing your teachings Confidence shot Selfless thing go extremely Contageous flavor Distributed in major Tomatoes with juice Chances of prostate cancer Disease is fictitious Never abandon your Emmanuel For want of religion Kept peasants 180 Just got back From what It ain't nothin' but gamblin' In the pockets scramblin' To avoid the sack I'm seldom seen 'Cause I'm on the label No dis Boneless fingers go from For the one In a matter of tone A target of Since sense has made me enemies It has performance in demand Violence, a tradition in the Western Hemisphere Claim jumpers and land jackers

[Chorus]
