

Borrowed Time

Goodnight, Texas

Made it down to earth a couple hours ago
Man, I don't know what they've done with the place
Yeah, they got gravity but I like it better in space
Made it into town a couple minutes ago
You know where but you want to know why
The land was burning, the smoke hung up in the sky

I been losing borrowed time
I been using what isn't mine

Made it to the corner store with seconds to go
Had my gauge right down to the line
The band started playing, we started drinking the wine
Ran into a couple of the usual kids
I was fish out of water again
It's a real humdinger, I might not stay to the end

I been using borrowed time
I been losing what isn't mine
I been boozing but feeling fine

I been losing borrowed time
I been using what isn't mine
I been boozing but feeling fine
I been losing borrowed time
I been using what isn't mine
I been losing borrowed time
I been using what isn't mine
