

Uncontrolled Study

Goodnight, Texas

Everybody's got their own thing
Steady while I watch your mood ring
Teach me how to slap a bracelet
Haven't learned to read your face yet
It's a long uncontrolled study we're in

Ante up the double blind now
Ask a factory cow 'bout now how
Quarter in and pull the lever
I'm not ready to receive her
It's a long uncontrolled study we're in

You could really rock a fat lip
Who's the captain of your gunship?
You could make a lousy first mate
You can do it on the worst date
It's a long uncontrolled study we're in

I can make a decent key lime
We could make a dent in space time
I could use your full attention
We can push and pull dimension
It's a long uncontrolled study we're in

Uncontrolled study we're in
It's a long uncontrolled study we're in
It's a long uncontrolled study we're in
