

## Day Job

Gord Bamford

This danged ol' day job  
It ain't no thrill  
But it makes those ends meet  
And pays my bills  
I ain't complaining  
But it ain't right  
My old day job  
Is ruining my night life

Sometimes I go out on the town  
Out with the boys  
Throw some cold ones down  
We'll all get crazy  
Then I'll realize  
Yeah my old day job  
Is ruining my night life

Hey there's my bossman  
He's tied one on  
And there's my banker too drunk  
To drive back home  
Tomorrow morning  
Ain't on their minds  
And my old day job  
Is ruining my night life

Yeah my old day job
