

# Heard You In A Song

Gord Bamford

I heard your voice in Amarillo  
Through the static just outside of town  
And there you were on another station  
Ray-Bans on with the windows down

Heard you in a song  
I got your picture in my mind  
I know that perfect in your eyes  
Your smile  
And the dress that you have on  
I can see your hair  
Shinin' like the sun  
Girl I know that you're the one  
That I've been waitin' on

Heard you in a song and I had to turn it up  
Now girl you got me goin', got me burnin' up  
Now girl you got me singin' all night long  
Heard you in a song

On the 101 in California  
Heard you were walkin' on a beach  
West coast sand and brown tan glowin'  
In my mind you're just outta my reach

Heard you in a song  
I got your picture in my mind  
I know that perfect in your eyes  
Your smile  
And the dress that you have on  
I can see your hair  
Shinin' like the sun  
Girl I know that you're the one  
That I've been waitin' on

Heard you in a song and I had to turn it up  
Now girl you got me goin', got me burnin' up  
Now girl you got me singin' all night long  
Heard you in a song

I wish I could close my eyes now  
Have you with me right here right now  
In my arms right where you belong

I heard you in a song  
I got your picture in my mind  
I know the perfect in your eyes  
Your smile  
And that dress that you have on  
I can see your hair  
Shinin' like the sun  
Girl I know that you're the one  
That I've been waitin' on

Heard you in a song and I had to turn it up  
Now girl you got me goin', got me burnin' up  
Now girl you got me singin' all night long
