

# Hurtin' Me Back

Gord Bamford

Well this old familiar conversation  
We'd just about worn it out  
And I keep tryin to change the subject  
But you won't let it down  
And this broken stretch of highway  
We've been drivin on  
Won't be getting any better  
Now we can't smooth things out

Till you get done  
Hurtin' me back  
Baby we can't move on  
If we leave things where there at  
And we can't keep goin on like this no more  
And that's the cold hard fact  
Till you get done  
Hurtin me back

I know that I hurt you darlin  
And I sure have regrets  
But somethings just can't be undone  
Lord knows I tried my best  
And it all comes back with every glass  
Of that deep red merlot wine  
And makes you feel a whole lot better  
Just a little at a time

Till you get done  
Hurtin' me back  
Baby we can't move on  
If we leave things where there at  
And we can't keep goin on like this no more  
And that's the cold hard fact  
Till you get done

Hurtin' me like I hurt you  
Breakin every piece of my heart to  
Tell me baby what more can I do

Till you get done  
Hurtin' me back  
Baby we can't move on  
If we leave things where there at  
And we can't keep goin on like this no more  
And that's the cold hard fact  
Till you get done  
Hurtin' me back

Till you get done
