

It's A Good Thing

Gord Bamford

You can't get too much loving from a real good woman
All of that kissing, all of that hugging
It's a good thing, mmh
It's a good thing
You can't have too much fun on a Saturday night
Hanging with your friends 'neath that old moonlight
It's a good thing
Yeah, it's a good thing

It's like a shot of clear whiskey going down real smooth
Talking sweet nothings and looking at you

It's like sitting by the river, casting a light
Watching that bobber, got nothing but time
It's a good thing
Yeah, it's a good thing
It's like laying a blanket by a warm camp fire
Watching the flame clouding up your eyes
It's a good thing
Girl it's a real good thing

It's falling asleep underneath the stars
Waking up later in each others arms
It's a good thing

In a world that's gone half crazy
I'm thankful for you baby
It's times like these
That bring it all back home
With love like this, nothing could go wrong
It's a good thing

It's like a shot of whiskey going down real smooth
Talking sweet nothings and looking at you
Falling asleep underneath the stars
Waking up later in each others arms
It's a good thing
Baby, it's a good thing
Good, good thing
