

# We're All Cowboys

Gord Bamford

Some of us work nine to five  
At a desk job way down town  
And some of us have calloused hands  
From workin' that ol' ground

But we've got one thing in common  
Every guy I know's the same  
Got a burning in our hearts  
And it's a never ending flame

We want to ride off in the sunset  
With the girl of our dreams  
Head out west into the Rockies  
Where the air is cool and clean  
Settle down in some green valley  
With the moon and stars above

We're all cowboys  
When it comes to love  
We're all cowboys  
When it comes to love

There's a house band somewhere playing  
In a honky-tonk tonight  
There's boots and jeans and beauty queens  
Everybody's feeling right

Some are from the country  
And some are city folks  
No matter where you might be from  
Every cowboy knows

We want to ride off in the sunset  
With the girl of our dreams  
Head out west into the Rockies  
Where the air is cool and clean  
Settle down in some green valley  
With the moon and stars above

We're all cowboys  
When it comes to love  
We're all cowboys  
When it comes to love
