

Nancy

Gord Downie

Nancy, I can't see from far away
I can't tell you where I am today
I can always feel you near enough
To say
I can always see you even far away
I can even hear and see and sing and dance
Makes me feel everything
Hope and love, a chance
See you smile a smile
Your eyes, nothing to withstand

Nancy, I can feel you closer to the end
It murders me at the beginning, the middle, and the end
By the time I got to the end
We'll start all over again
