Indifferent

Gordi

Don't you know that I'm not sleeping
Even though we're always tired
Evidence my mind's deleting
This cannot be rewired

The discomfort in all that we know
We've been burdened by our self control
Did you hear any words that I wrote

I am indifferent
I am indifferent
I am indifferent to you

Do I feel like I have known you
As we lie here, bodies cold
Like a fear I have outgrown you
A proposition we were sold

All the stillness in all that repeats
Seems to surface and wash over me
And I give you no apology

I am indifferent
I am indifferent
I am indifferent
I am indifferent
I am indifferent
I am indifferent
I am indifferent to you
