

Limits

Gordi

A bottle of Malbec hid under my coat
I stole only glances until you would notice
You'd ask me if I would eat dinner with you
Your friends came along but I forgot they were there too

So come stand in my kitchen
Come on and sleep in my bed
'Cause I want to give you familiar
So you can find your way round in my head
So come stand in my kitchen
Come on and sleep in my bed

You gave me confusion an unopened prize
Unwrapped my delusions revealed my disguise
A way past the limit your hand on the trigger
I pushed and I pulled until nothing felt bigger than this

So come stand in my kitchen
Come on and sleep in my bed
'Cause I want to give you familiar
So you can find your way round in my head
So come stand in my kitchen
Come on and sleep in my bed

So don't antagonise me
I won't compromise unwillingly
Please know I'll give you the best that I can

So don't antagonise me
I won't compromise unwillingly
Please know I'll give you the best that I can

So come stand in my kitchen
Come on and sleep in my bed
'Cause I want to give you familiar
So you can find your way round in my head
So come stand in my kitchen
Come on and sleep in my bed
