

Peripheral Lover

Gordi

I'm in your backstage
I'm on your sideline
I'm looking your way
So won't you put me in your sight lines

I want it I want it I want it all right now
I want it I want it I want it all right now

Don't you make me your peripheral lover, no
I want to be there in the middle
You need to give me something visceral, baby
I want to be there in the middle

I'm not your peripheral lover
I'm not your peripheral
I'm not your peripheral lover
I'm not your peripheral

You take me for a ride
You're playing unfair
Can you make up your mind
Because you give me the impression you care

Do you care
Do you care
Do you care

Don't you make me your peripheral lover, no
I want to be there in the middle
You need to give me something visceral, baby
I want to be there in the middle

I'm not your peripheral lover
I'm not your peripheral
I'm not your peripheral lover
I'm not your peripheral

Don't you make me your peripheral lover

Don't you make me your peripheral lover
I want to be there in the middle
You need to give me something visceral, baby
I want to be there in the middle

Don't you make me your peripheral lover
I want to be there in the middle
You need to give me something visceral, baby
I want to be there in the middle

I'm not your peripheral lover
I'm not your peripheral
I'm not your peripheral lover
I'm not your peripheral
